PROFILE

Full-stack developer that utilizes an unorthodox skill-set to deliver awesome results.

TECHNICAL

Experience

Front End Developer at Stream.me

2016 – Current

- Built dynamic user content utilizing React.js, Express.js, and Node.js in our conversion to service oriented architecture (SOA).
- Built RESTful APIs and utilized Flux data flow.

Skills

- **Strengths:** Servant leadership, collaboration and project management, goal-setting, presentation skills, extemporaneous speech, academic research, social coding, and visual design.
- **Technologies:** Node.js, Express.js, React.js, Handlebars.js, HTML5/CSS 3, Sass, Vanilla JS, ES6 jQuery, Bootstrap, MySQL, Git, Responsive Design, AJAX, RESTful APIs, Linux, NGINX, Command Line, MongoDB, Bower, Agile/Jira.
- **Understands:** Algorithms, Computer Science Fundamentals, Problem Solving Heuristics.
- **Familiar with:** Slack, Photoshop, Illustrator, Machine Learning.

Projects

- **Cardongeography.com – (rollover expected 10/10/2016)** - Static website delivering supplementary content for a high school class. Rebuilt in MERN. Gloriously overpowered.
- **Classify.host** - CRM for teachers initially built using Node, Express, MySQL, and dynamic Handlebars template rendering; expected re launch using MERN Stack: 11/01/2016.
- **Chanceeakin.io** – Personal Portfolio.

OTHER

Free-lance Performing Artist (Opera Singer)

2012-2016

- Delivered high-quality live music and creative content on a bi-weekly basis.
- Designed and implemented promotion materials annually.
- Appearances with the Florida Grand Opera, Aspen Opera, and Opera Saratoga, among others.
- Managed billing on 50+ accounts through Wave Apps with invoicing through Stripe.
